

The prediction long ago made that this season would be the gayest Salt Lake society has experienced in some years, is being verified, and a glance forward indicates that the activity will increase as the season advances.

The week just closed has been eventful enough to bring out nearly all of the society people at some of the varied forms of entertainments—dinners, receptions, card parties, balls and those smaller gatherings where the enjoyment is not less complete than at the larger affairs.

There were several weddings of special interest, among them those of Miss Mayne Ward and Mr. Fred Noble at San Francisco on Wednesday; Miss Alice Woodruff and Mr. William McEwan on Tuesday; and Miss Clara Kanyon and Andrew MacLean on Thursday.

Mrs. George F. Downey's dinner in honor of Mrs. J. A. Pollock and Mrs. Landstreet, Mrs. Glendinning's card party on Monday afternoon, and the party given by Miss Mackintosh in honor of Miss Bolinger were notable affairs, and the ball given by the high school at Christensen's Friday evening was the most brilliant of the season thus far.

Besides these there were innumerable smaller affairs.

Interest now centers in the military ball to be given on Nov. 24, for which elaborate preparations are being made, and the charity ball early in December. Between these, and extending on throughout the season, there will be a succession of brilliant events, and the revival of the cotillon will add considerably to the general activity.

The coming week, though, will be the most notable of all the year in a social way, because it brings with it Thanksgiving day—that day of days when entertainment rules supreme everywhere. Nothing equals the enjoyment that comes from these Thanksgiving gatherings, when the home circles are crowded up again and associations that have been almost broken off during the year are renewed. In a thousand homes there will be entertainments and happiness will be all pervading.

Thanksgiving day, in a sense, is an American institution. It is the day of all the year which may be described as the most universally observed by any society in its widest application, a day of sociability and felicitation.

There was a dearth of social events at Fort Douglas during the week just past. There were only two parties given, one a dinner by the officers' wives and the other a card party given by the monthly meeting of the card club. These two affairs made up the entire list of social gatherings.

On Wednesday evening the Post Card club held its regular meeting in the rooms of the Officers' club, and the time was most pleasantly passed. These little gatherings of the Post Card club are much appreciated by the members, besides adding a mite to charity. Each person participating in the entertainment is required to pay a small amount which goes to charity.

The gathering last week was a large one and was attended by most of the officers and ladies in the post. The entertainment was given by Mrs. Lisette and the first prize for the ladies was carried off by Mrs. Litch, while the gentleman's was won by Colonel Crandall. Woman's Club.

At the last meeting of the Woman's club an intensely interesting paper was read by Mrs. Annie Bradley on "Municipal Methods of American Cities." After giving a lengthy account of the

government of our great cities, showing that the point of vision of those who hold office was their pocket rather than the cities' interest, the speaker took up the government of foreign cities—London, Paris and Berlin—giving a clear, concise account of the methods and men who govern these cities, showing that the aim of office holders was to benefit the cities and not themselves, which is something that has been lost sight of in American office holders. Let these many years. The contrast drawn by the speaker between the government of leading foreign cities and our own was something to make every honest American blush with mortification that such corruption could exist in this great republic, which was founded in privation and self-sacrifice, nurtured in honor and the fear of God. "Alas! how are the mighty fallen," for now the temple of freedom has become a den of thieves.

La Coterie at Home.

On Tuesday afternoon, Nov. 16, La Coterie celebrated its seventh anniversary by an at home, held at the residence of its president, Mrs. A. J. Warner, at Ogden.

The function, in the perfection of its details and the numerous attendance, proved one of the leading social events of the season.

The reception was tendered by the Federated clubs of Ogden and the S. O. O. B. club, affording them an opportunity to meet the president of the Federated clubs of Utah, Mrs. Jennings of Salt Lake, who honored the occasion with her presence.

The reception rooms were lavishly ornamented with chrysanthemums in pink and cream, the club colors, while every other available space was filled with palms and ferns in profusion.

The young ladies of La Coterie presided over the cafe and teas in the dining room, which was made doubly picturesque for the occasion by the lavish use of blue delft ware. This style of decoration was adopted as being in harmony with the club's line of study for the year, which largely includes Dutch art.

Prospective Mothers

should know that Dr. Pierce's Favorite Prescription robs childbirth of its terrors and dangers for her as well as its dangers to both mother and child, by aiding nature in preparing the system for parturition, thereby rendering it easy and almost painless. The "labor" and also the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child. During pregnancy it prevents "morning sickness" and those distressing nervous symptoms, from which so many suffer. Its use should be begun early in the period of gestation—in fact the earlier the better.

CATARH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effective Cure For It.

Catarh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gas, causing pressure on the heart and lungs and difficult breathing; headaches, sickle appetite, nervousness and a general played out, languid feeling.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Haysman the safest and best treatment is to use after each meal a tablet, composed of Dextrose, Aspicin, Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Boeber of 2710 Dearborn street, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribe for me for three years for catarrh of the stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from this use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest, and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn, nervousness after meals.

Send a little book mailed free on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.
